

Canadian 4-H Watercraft Insurance Information Form

Presently the Canadian 4-H insurance policies allow for the use of owned and non-owned watercraft subject to following requirements:

- Watercraft are less than 8 meters in length;
- Watercraft are not used to carry persons or property for a fee;
- All participants must wear an approved life jacket at all times;
- Each watercraft must carry a bailer, buoyant throw/tow line and a signalling device;
- White water and ocean activities are excluded.

In order to ensure the ongoing availability of these insurance products it is important for the Canadian 4-H Council and their Insurer representatives to gather additional information to qualify the 4-H watercraft exposures on a National basis. In this regard, all Provincial 4-H Councils, Clubs/Districts etc. are required to complete this form if you are involved any boating activities. Please attach a separate Section #2 for each motorized watercraft owned by your Province/4-H Club/District etc. Note, you are only required to complete those sections that apply to your Province/Club/District etc.
