4-H Project UPDATE

This fall, 25 new project manuals (a member and leader manual for each) were released for use by members and leaders. We hope you are now working through your projects and having fun learning about your topic of interest, as well as other 4-H club activities!

Since we will continue development of the remainder of the project series into the new format, the manuals released this fall will be in use for 3 years. However, any corrections or suggestions you have should be brought to our attention as soon as possible for inclusion in any reprints.

Please also share any ideas for new specific project topics that you think would appeal to youth 4h@gov.mb.ca
